

ABOUT US

TECHNICAL PARTNERSHIP

CompNet Federal Solutions Inc. (CFSI) is a Small Business (SB), Minority owned Small Business (MO/SB), and Small Disadvantaged Business (SDB), headquartered in Bethesda, MD. CFSI provides a broad range of services to the U.S. Department of Defense (DoD), U.S. Department of Homeland Security (DHS), Federal, State, and Local Government Departments and agencies and Commercial customers. CFSI's core capabilities specialize in Cyber Operations, Information Assurance and AI-driven security, Cloud Computing & Migration, DevSecOps, System Design & Architecture, Telecommunication Infrastructure Installation/Modernization; Network/Systems Engineering and Administration, Enterprise Wide Information Technology Support Services, Health Care Technology; and Linguist Services. Our commitment to our customers provides a combination of leadership thinking, highly skilled IT professionals, subject matter experts, leading edge technology, and well-defined quality assurance oversight with repeatable process/documentation management. We are dedicated to delivering best-value services and solutions based on innovative methods and technology. We have an uncompromising commitment to providing our customers with quality technical products and services, while meeting high moral and ethical standards during the entire contract lifecycle.

LINGUISTIC SERVICES CAPABILITIES

CompNet Federal Solutions, Inc (CFSI) Language Service Division maintains a network of language-enabled analysts possessing foreign language collection, transcription, translation, interpretation, and analysis experience supporting the IC, DoD, and other government agencies. CFSI provides language-enabled analysis collection, processing, analysis, and reporting in support of DIA worldwide mission operations.

CFSI language staff possess extensive country and regional subject matter expertise in most Tier 1 and 2 target countries and regions.

CFSI language-enabled analysts offer a full-range of linguistic services to include OSINT, SIGINT, cyber, collection, analysis, and reporting in response to specific intelligence requirements levied by national, strategic, and operational consumers. They provide, as needed, full, partial, and rapid turn-around summary translations of foreign language material.

CFSI delivers cultural and linguistic expertise in over 50+ languages to include Arabic (all dialects), Chinese (all dialects), Dari, Farsi/Persian, Korean, Pashto, Romanian, Russian, Ukrainian, Spanish, Urdu, Somali and other languages and dialects important to US foreign policy. CFSI program managers are SMEs with decades of experience identifying, screening, and utilizing language-enabled staff to satisfy our intelligence customers' requirements.

CFSI language-enabled analysts are skilled at translating target languages into and from English while maintaining the integrity and appropriate nuance of meaning. Many CFSI professionals honed their capabilities at the front-end of the Global War on Terror (GWOT) while serving as US military and/or contractors in Iraq, Afghanistan, Iraq and other regions abroad. CFSI customers benefit from this first-hand insight needed to support and expand on our nation's strategic, operational, and tactical missions that are vital to our nation's security. We bring the knowledge and hands-on experience to support your needs for:
